Removal of Case Examiner referral reasons within IOT bundles

Dear all

Please be aware that from the week beginning Monday 2 May, Case Examiner decisions will no longer be included in the GMC bundles that you receive ahead of an IOT hearing.

For cases where the doctor does not attend and the tribunal wishes to proceed in absence, or there is dispute over whether proper notice has been served, GMC Counsel can be asked to produce the relevant documents to confirm that the doctor has been correctly notified.

If you have any queries, please feel free to contact us.

Kind regards
